SUPERFUND RECORDS

Dear Mr. Vest:

Please refer to my letter of 29 June 1981, inviting you to attend the Pine Ford Coordination/Scoping Meeting here in the St. Louis District Office on 8 July 1981.

Attached is a list of agencies and organizations expected to participate. Also attached is a tentative agenda for the meeting. The meeting has been changed from Room 842 to Room 826, but all other particulars remain as outlined in my earlier letter.

Meeting attendees are also welcome to observe the Corps' bat netting contractor on the night of 8 July. If you are interested, please call Mr. John Brady (314) 263-5711 by the afternoon of 6 July so that arrangements can be made.

We look forward to seeing you on the eighth.

Sincerely,

2 Incl

29 June 1981

Mr. Edward C. Vest
U.S. Environmental Protection Agency
314 East 11th St.
Kansas City, Missouri 64106

Dear Mr. Vest:

I am writing to confirm our earlier telephone conversation with you concerning the Pine Ford Scoping/Coordination Meeting.

As previously discussed, this meeting will be held 8 July 1981 in the St. Louis District Office, 210 Tucker Boulevard, North, Room 842, 9:00 a.m. I expect that the meeting may extend well into the afternoon.

The Pine Ford study, which encompasses the Big River basin and the Lower Meramec River, will define the water-related problems in the area and will consider a broad array of measures for dealing with the problems. In particular, although we will reexamine the authorized Pine Ford Lake project, we will not give this option special preference over other structural and non-structural measures.

At the 8 July meeting, we will be discussing the geographic scope of the study, identifying problems, defining likely future conditions in the area (both with and without a project) and proposing measures that should be examined to address the area's problems and needs. We will send you a tentative agenda and list of attendees in the coming week.

We are looking forward to discussing these matters with you and appreciate the investment of your time in assisting us.

Sincerely,

JACK R. NIEMI, P.E.
Chief, Engineering Division
